Hear the difference

SC-6 AIR Silver speaker cable

- Single conductors for high, mid and low frequencies
- 36 conductors, 6x 6 single strands
- 10 airpipes
- SC-AIR splitters
- T6s banana plugs
- 24 carat real gold-plated contacts
- 15 mm² cross-section
- 27 mm cable diameter
- Capacities of appr. 63 and 91 pF/m

Available versions

- Single-Wire
- Bi-Wire / Bi-Amping
- Tri-Wire / Tri-Amping

Various lengths up to 15 m

Get the most out of your sound system!

VIABLU[™] stands for a truly first-class listening experience thanks to high-quality standards and outstanding functionality. We guarantee utmost precision by using innovative technologies, state-of-the-art production methods and exclusive materials. For example silvered strands, 24 carat real gold-plating of all plug connections, our AIR-technology or the VIABLU[™] Ultragrip coating.

Our expertise is based on decades of high-end hi-fi experience. All our products are developed using modern 3D-CAD-technologies. Only by constantly pushing limits can we meet our own goals and high standards in regard to technology, functionality and design.

Individual. Exclusive. Unique.

VIABLU[™]. Hi-fi tradition since 2001.

QUALITY. FUNCTIONALITY. DESIGN.

A German success story

Outstanding Quality

... starts with the materials we work with.

Conductors of pure oxygen-free copper, silvered strands and 24k real gold-plated contacts: For our products, we only use exclusive and premium components. Feel the difference, e.g. on the unique Ultragrip surface of our power connectors.

High Functionality

VIABLU[™] stands for innovative and technically ambitious solutions like multi-layer cable shields and our specially designed ferrite filters. Solid screw and solder connections guarantee a strong and safe hold for plugs and cables.

Unique Design

Every VIABLU[™] product is the result of a long and thorough development process combined with a lot of passion for detail. After initial drawings and sketches, we create 3D-models and prototypes. These then undergo many testing cycles in order to meet our high expectations in regard to functionality, quality and design.

The result is a truly first-class listening experience.
