VIABLUE™

Creating amazing speakers

VIABLUE™ meets Mark Thomsen

- Speakers with a true high-end sound
- Combined with a unique and beautiful design
- For a decent price for all hi-fi audio lovers

Mark Thomsen`s goal was clearly a high one. The Danish born Australian engineer combined craftsmanship with product design and 20 years of experience. In 2016, he founded M8audio to produce some of the most amazing speakers available for a very decent price. Recently, Mark was awarded "Best Newcomer 2018" at the Melbourne International hi-fi Show.

We are honored that Mark chose VIABLUE™ spikes and cables to complete his speakers and stands. Thank you Mark!
