

## VIABLUETM meets Pio Sauer

Pio is a very down to earth, grounded person. He is a kindergarten teacher, student and business consultant who helps clients to find solutions within themselves. As dad for two kids, Pio enjoys making music with little people, as well as grown-ups from all over the world.

His sound system is equally grounded with a Cambridge Audio Azur 851a combined with Tannoy Revolution DC8T speakers. They too stand on a solid foundation. With silver QTC Spikes made by VIABLUETM
