

## VIABLUETM meets Salvatore Spatafora

For many years, Salvatore, living and working in Triest, Italy, built loudspeakers to find just the right sound. He then combined his findings with a unique design strongly reminding us of a Ferrari. Finally, in 2016, Salvatore founded the speaker company ESSE Quadro.

We are happy to present Salvatore's ESSE Quadro L'UNA 177 with the VIABLUETM SC-6 AIR Silver. Perfection. Perfect.
